DECLARATION OF ALMA - ATA

International conference on primary health care, alma-Ata, USSR, 6-12 September 1978

The International Conference on Primary Health Care calls for urgent and effective national and international action to develop and implement primary health care throughout the world and particularly in developing countries in a spirit of technical cooperation and in keeping with New International Economic Order. It urges government, WHO AND UNICEF and other International organizations, as well as multilateral and bilateral agencies, Non Governmental Organizations, funding agencies, all commitment to primary health care and to channel increased technical and financial support to it, particularly and develop countries. The conference calls on all the aforementioned to collaborate in introducing, developing and maintaining primary health care in accordance with the spirit and content of this Declaration.
